

Licensed Mental Health Therapist – Children, Adolescents & Adults

Mimosa Christian Counseling Center is seeking a compassionate and skilled Licensed Mental Health Therapist to provide outpatient counseling services primarily for children and adolescents, with some adult clients as needed, in a supportive nonprofit practice setting.

This position is being created to help support the continued growth and expansion of services at MCCC, including maintaining continuity of care during an upcoming maternity leave transition.

As MCCC continues expanding services for underserved populations—including Spanish-speaking clients and Medicare recipients—we are seeking a fully licensed therapist who can help support these growing community needs. Preference will be given to bilingual (English/Spanish) candidates.

Because MCCC provides counseling from a Christian perspective, we are seeking a therapist who is comfortable working within a faith-based counseling environment and who values compassionate, respectful, and ethically grounded care.
